37667 Cherry Hill Rd. Westland, MI 48186

Serving Southeastern Michigan for over 25 Years

Technical Hot & Cold, based in Westland, Michigan, has been serving the Greater Metro Detroit area for over 25 years. In 2010, operations were expanded to include national and international parts support, an increased geographic service area, and an in-house testing and repair facility.

We proudly provide our customers with a full range of heating and cooling services, specializing commercial and industrial applications from installation to service. Our expertise ranges from heating and cooling equipment, chillers, ventilation, building controls and food equipment. Technical Hot & Cold is also an authorized HVAC parts and equipment distributor for a variety of brands.
